Summary

Front-End Developer with over three years of experience and expertise in Next.js, React.js, and Tailwind CSS, dedicated to crafting high-performance, visually compelling web applications. Proven ability to translate complex requirements into seamless user experiences.

Certified by the McKinsey.org Forward Program, demonstrating strong problem-solving, communication, and adaptability in fast-paced environments. Committed to writing clean code, implementing responsive design, and utilizing modern tools to deliver impactful digital solutions.

Education

Bachelor of Science,

Bachelor of Science in Computer Science, Minia University, Egypt

Grade: 3.55/4.0

Projects

Full-Stack E-Commerce Platform [🔗](#), (Next.js, Tailwind CSS, PWA)

- Developed a production-ready full-stack e-commerce application for a pharmacy, featuring an admin dashboard for inventory and order management.
- Improved a customer storefront with cart and checkout functionality, ensuring a smooth shopping experience.
- Implemented PWA capabilities with offline support and real-time push notifications for enhanced user engagement.
- Optimized for SEO with structured data and ensured fully responsive design across all devices.

3D MacBook Landing page [🔗](#), (React.js, Tailwind, Three.js)

- Created an interactive 3D landing page inspired by a modern MacBook product showcase.
- Executed smooth animations and 3D visuals for an engaging user experience.
- Focused on clean structure, performance, and mobile-screen.
- Demonstrates understanding of 3D concepts applied to the web.

Personal Portfolio Website [🔗](#), (React, Tailwind CSS)

- Responsive personal portfolio website using React and Tailwind CSS to showcase projects, technical skills, and professional identity.
- Applied modern UI/UX patterns, smooth animations, and enhanced deployment workflows via GitHub and Vercel.
- Designed with a strong focus on branding consistency and bilingual accessibility
